

# Memorial Bridge

Aerial view looking East towards the Portsmouth Naval Shipyard

Commemorative WW I plaque on South end of Memorial Bridge in Portsmouth NH

Bridge opening for commercial fishing boat

Span 2

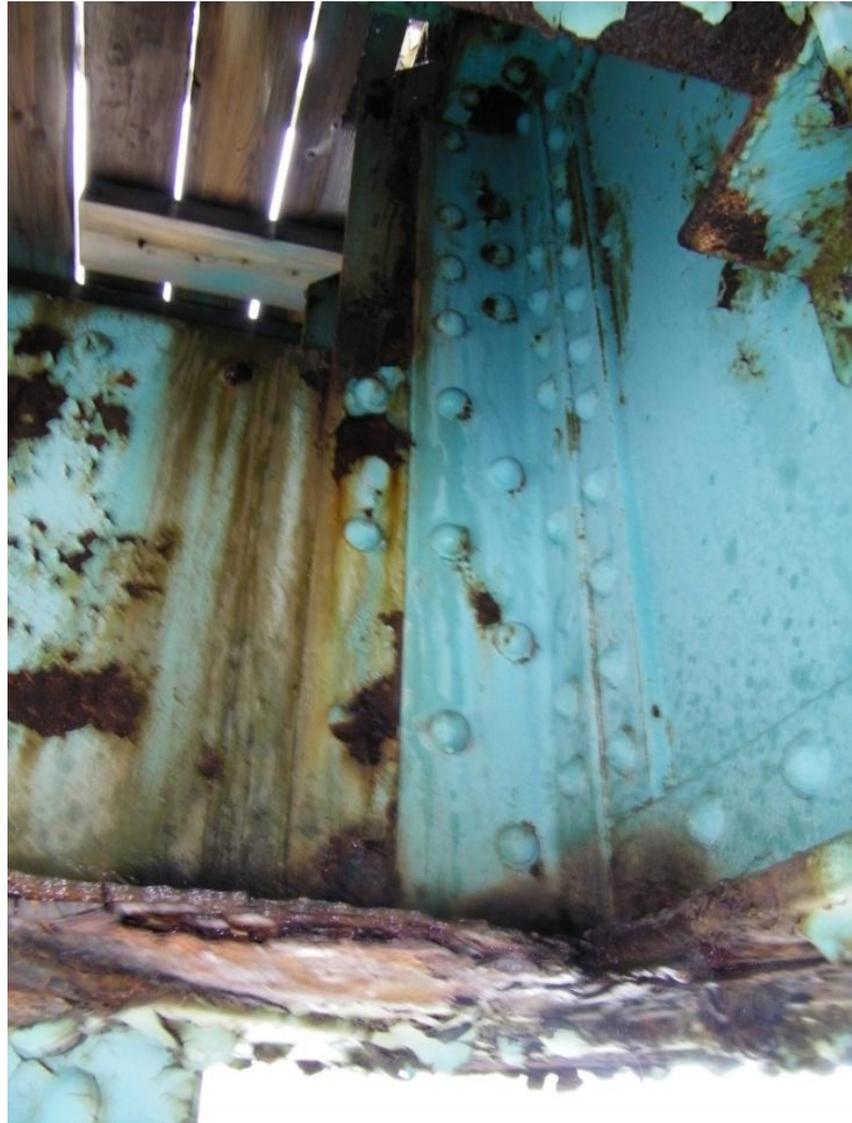

Severe deterioration on bottom Chord L5-L6, Interior Face with wooden sidewalk walking surface above

Span 1 Bottom Chord L8-L9, East Exterior Face  
Typical Condition at Fixed Span Bottom Chords between panel points

Span 1 Gusset Plate L9 East with repair, plate from previous repair  
Roadway floor beam (left) framing into interior face of bottom truss chord  
(right)

Span 1 Gusset Plate L7 East horizontal gusset plate between roadway floor beam and the fixed span truss bottom chord.

Span 1, Bay 8, Stringer 7 (East Roadway Stringer)  
Typical stringer condition at metal drain pipe

Span 1 Gusset Plate L7 East  
Roadway floorbeam/bottom truss chord connection - wooden sidewalk walking surface  
above

Span 1, Floorbeam 6, North Face  
Typical condition in roadway floor beams near chords

Span 1 Bottom Chord L2-L3, East Exterior Face  
Typical Fixed Span Bottom Chord Condition between truss panel points

Span 1 Bottom Chord L4-L5, East Exterior Face  
Typical Fixed Span Bottom Chord Condition between truss panel points

Span 3 Bottom Chord L3-L4, West Exterior Face  
Typical Lacing and rivet head Deterioration

Span 3 Gusset Plate L3 East Interior with severe section loss  
Roadway beam (right) framing to the bottom truss chord (lower left)

Span 3 Bottom Chord L3-L4, West Exterior Face

Inside of Chord at Gusset L9 in Span 3.  
Deteriorated lacing in the foreground and a deteriorated internal stiffener plate center.  
Truss diagonal seen just above internal stiffener plate

Span 3 Floorbeam 9, South Face, East End  
Heavily deteriorated with holes in web of roadway floor beam  
Roadway Floorbeam has been previously repairs as evidenced by bolts.

Span 3 Gusset Plate L9 East Interior face of bottom chord  
with severe deterioration

Top chord looking south from U2 looking towards Portsmouth. Rivets replaced by bolts in previous repair. Gaps between bolts suggest severely deteriorated rivet heads

U1 Lateral bracing on top chord, typical example of 1" pack rust between gusset plate and framing members
